What is a Financial Reality Fair, you ask?

It's an educational, interactive simulation event for high school students. Students are given scenarios that place them in the future after completion of a form of secondary education. The simulation gives students an opportunity to experience what life looks like on their own, with financial responsibilities.

Your role as a volunteer:

*Take on the role of a "vendor": apartment leasing agent, auto dealer, insurance agent, etc.

*Assist the students through the simulation with training provided by Point West Credit Union

*Most importantly, HAVE FUN!
